Over 25 Years Experience

August 8th & 9th, 2009

Patrick Callaghan personally trains each dog at the following location

**Dixon May Fair Grounds
655 South First Street
Dixon, CA 95620**

All breeds welcome!

Patrick Callaghan's Rattlesnake Avoidance Training is a safe, humane, and proven method to teach your dog to avoid rattlesnakes. Rattlesnakes can be found almost anywhere and their bites are quite common, dangerous and usually very expensive to treat. Our avoidance training teaches dogs to recognize and stay away from the scent, sound and sight of rattlesnakes they become aware of.

Each dog is individually and personally trained by **Patrick Callaghan** who is a well known, innovative specialist in the field and has many decades of dog training experience. For the most effective training we use live rattlesnakes which are carefully muzzled or defanged.

The safety and comfort of your dog is our highest priority! The training takes place in a controlled environment using a remote training collar system adjusted specifically to each dog's temperament, personality and physical response characteristics. We use only the minimum level of stimulation to produce the desired education. Yearly training is recommended to refresh and strengthen your dog's **rattlesnake awareness**.
